Requires accurate GPS service to be available and operating for features to function properly. Mapping may not be detailed in all areas or reflect current road regulations. Some Nissan dealers may not appear on the current mapping areas. Periodic updates to the DVD-ROM will be available for an additional cost. See your Nissan dealer for details. ⁴ Requires Dynamic Control Package. ⁵ Please keep in mind that air bags are a supplemental restraint system and must always be used in conjunction with a seat belt. Also, a rear-facing child restraint must never be placed in the front-passenger's seat. In fact, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Driver and front-passenger side-impact supplemental air bags and roof-mounted curtain side-impact supplemental air bags are designed to inflate in higher severity side collisions on the side of the vehicle impacted.
